

DA Gorman and Walker ignore the Law Cover up Crimes

While us taxpayers were watching the front door of the WYCO Courthouse Jerry Gorman and Hal Walker took the loot and their political bosses out the back door. Gorman swore to uphold the law then dropped it on the toes of taxpayers like a 50 thousand pound hot griddle.

According to sources inside the District Attorney's Office Gorman was seen numerous times in closed-door meetings with Walker. Walker sole mission was to protect the politicians on the ninth floor and political financiers who have given millions to their campaigns in return for permission to fleece us taxpayers.

Walker and Dennis Hays gave away millions to developers and funneled the money back to UG politicians who in return keep Hays and Walker fat, dumb and happy. The real cost to taxpayers is millions in lost tax dollars and BPU revenue that the UG gave away. Hays and Walker make the deals and then Gorman blesses the deals by not prosecuting the criminals.

Case in Point. George Powell and the BPU give away millions in development incentives to friends who hire their relatives and turn a blind eye toward corruption. Gorman's response is to cover up the crimes by not prosecuting them and then tell Walker and Hays to make more deals.

Sex on the Job. Gorman prosecutes KCK cops for getting head jobs behind buildings and in the police cars and makes them resign. But lets Hays and other UG staffers get it on while on duty and give them raises and promotions- it is OK if you are on the job at a desk.

Free Land and Money. Rick Worner holds fundraisers for the Mayor and puppet politicians and in return will get free land from the UG. The UG gives Worner the entire WYCO Fair Ground for free and then he sells it to the Schlitterbahn group and pockets all the money. BPU staff resists giving away millions of poor peoples money to support the Water Park and are fired for speaking up.

The moral of the story for taxpayers is your property tax bills will go sky high and your utility bills are paying for the corruption. Good Job Jerry- Wyandotte County sinks into financial, moral and political decay as you sit on your billfold and watch it lift your ten-ton ass through the roof.

Daughter of Abe.
