

In Memory of one of my best friends from times past

Marc Conklin and I lifted weights for almost 8 years Monday thru Saturday and we talked a lot about family and friends. Marc was an intelligent man with a great personality. His dream in life was to have a family and he wanted 2 children and a beautiful wife. Conk got his wish, I can attest because I knew all his family.

Thru gentle suggestions and some not so gentle I advised Marc too be careful in his business deals and extra careful around political matters. His wife Jill was outspoken about his friendship with Politicians and that same friendship, sadly, got him into trouble.

I will miss Marc Conklin and my Heart goes out to his family.

I want to tell you what I had heard from the streets of KCK, I find this interesting and informal. I hope you feel the same?

March the 21st I got a call from a Fellow Campaigner whom said that while talking with a man in his driveway the BPU became a topic. The man said that very BIG news was going to break March 25th that would shock the BPU world. The Campaigner asked if it was news about an elected official or about me? He said NO!

I asked around to people in the know and even the KBI if anyone had heard about news that was to break March 25th? Not one person knew of anything or had heard anything.

March 23rd I got a call that Marc was going to turn evidence about a top ranking City employee that would get him off the hook of his Grand Jury matter. I also passed this on to officials and friends for verification without knowledge.

March 24th I hear that the same top ranking City employee asked to have lunch a campaign manager and asked extended questions about the where bouts of Marc Conklin, as I was told.

March 25th I get an early AM call from the police about the death!

Would Marc Conklin take his life, ---NO!
