The Unified Government of Wyandotte County has raised taxes so high that the only people left in the County are public employees, old people and immigrants. The entire county has become a welfare state where even the poorest people do not want to live.

Young immigrant families want to arrive in a safe and decent place to raise their families. Wyandotte County has several problems rape, robbery, murder, stabbings, assault and finally the highest taxes in the state of Kansas. Not satisfied with having the highest property taxes the UG Thugs recently raised the sales taxes so high that most of the local retail stores will soon be closing.

The UG community is without public communications, without a radio station, newspaper and now is blocking informative truth and factual public news and web pages. The only source of news is City propaganda, voting mandates and job threats fed daily to City employees.

Congratulations politicians you have finally ruined the entire county but surely that was your plan, wasn't it?
