

KCK Unified Government More Taxes More Murder

The body count is starting to pile up in WYCO, but not near as bad as the tax bills. The recent tax increase levied by the UG Board of Commissioners takes the total revenue to new heights for Dennis Hays and Joe Reardon. As taxes increase and mobile families flee the urban core, crack dealers line the streets to sell their wares to the poor families left to manage the mess created by politicians.

Drive down Quindaro Avenue and witness the destruction. Vacant buildings, weedy lots and trash laying around in abundance speak volumes for the Unified Governments organization. As the UG gives Wal-Mart tax abatements and taxes the lower class to pay for Wal-Mart's new super stores, families are left reeling with problems. The corporate greed heads get the money and your families get to pay the bills.

Families living east of Village West get to work minimum wage jobs to pay thousands in taxes and live in poverty. Schlitterbahn will hire 300 new workers and pay them \$4.65 an hour for a 40-hour workweek. The poor will receive a meager \$200 per week and pay over \$140 per week in taxes.

The workers will drive to work and or ride the metro at a cost of \$23 per week. Pay for day care or employment expense at \$50 per week. The cost of their taxes on car, auto, sales taxes and food taxes is around \$120 per week. This leaves the poor employee nearly \$12 per week for personal expenses. Is it any wonder people are moving in droves. No surprise in reality, the smart families are getting the hell out of WYCO before their love ones are victims of violent crime or worse death.

The voters voted and the corruption continues. Congratulations WYCO you reap what you sow.
