

Mark Mitchell and Mark Holland steal JFK Community Center from Urban Children

UG Commissioners Mark Mitchell and Mark Holland care only about the monthly salary that they get from taxpayers. The Heat, poverty, lack of education and social decline have never worried these two for profit theologians.

They deny children the use of parks and recreation facilities and then give them to the Johnson County Churches for summer programs for free. What is the catch? The kids work for the churches painting and cleaning and the preacher's pocket the money. On KCTV 5 news the media chronicled the dilemma and you can watch citizens stand up for what is right.

The UG response was to call it a misunderstanding. Mayor Reardon was so busy cleaning Dennis Hays' gutters and peeping in on his new Neighbors that he did not have time to notice that there was no summer programs for summer youth.

Great Job Mayor... you sit idle while two preachers steal the public blind.
