

Unified Government approves another Tax Giveaway

Ignoring the high taxes and the recent increase in BPU pilot fees. The UG has announced another massive Tax Giveaway. This time the lucky people are the developers on Rainbow Ave across from KU Medical Center.

The UG will try to develop a shopping center with Retail, after just closing a shopping mall less than 4 blocks away. 34th street is littered with Pawn shops and naughty stores yet the UG wants a retail location across the street from the hospital. Makes no sense at all yet that is exactly what will be approved.

Next year the UG employees will take another furlough day and citizens can expect to pay more on their BPU bills due to UG insanity.

Man I wish they would give me a TIF on MY HOUSE. The taxes are already so high I think I will move to Cuba.

Drowning in taxes in Rosedale.
