

Rotten politics warned you...

For months Rotten Politics has warned all taxpayers and UG employees of the level of corruption and incompetence of the UG Management. Some listened and voted NO on the Sales tax increases. Others believed Dennis Hays and now the community is a victim of the UG mayor Reardon and the management of Dennis Hays.

Mayor Reardon ignored the pleas of many and gave Dennis Hays and his wife hefty salary rises to support his new neighbors. The taxes go up and everyone else gets to pay for the incompetent management of Mayor Reardon. Mark Holland laughs as he takes his money and runs for the Church.

Pat Petty gets free trips and real estate goodies and cashes husband John's BPU check and benefits while the community goes broke. Bill Miller watches the other two and gets a bigger wheel barrel to haul off as much money as he can via Rick Worner real estate deals that use your tax money as collateral and insure the economic defeat of the entire county.

When will the madness end? When Smart Voters "Wake Up" and vote the Corruption and Greed from office.
