

The Latest E-Mails About Town!

The Commissioners are the dumbest people on the planet.

Let's get this straight. They pay Hays millions to manage the government and then he screws the books up and they do not fire him. What is the real truth hear.

Does Hay's have pictures of these politicians with sheep or what. The taxpayers are going to take it in the ear every time. The politicians are a bunch of robber barons who have no idea what in the hell they are doing. Lets see what happens in the end. I would bet that nothing will change taxes will go up and kek will continue to decline.

As a retired policeman my wife and I dedicated our lives to KCK. We moved to the Ozarks for fear of our lives. None of our children live in KCK, they all moved to Leavenworth county. There is no hope for the city. East St Louis Illinois is more desireable to live in than KCK.

This has been coming for a long time. Next time you are in the Ozarks drop by and say Hello.

Out of KCK

TJ,

Please post this on your site for me.

The UG is crooked.

The UG has been crooked.

The UG will be crooked.

And nothing will ever change until we rise up and crush the UG Politicians.

County worker

TJ,

You are the best. You tell it like it is and the politicians cannot stand it. The squirming little worms at city hall have taxed everyone to death. My parents died living in a little house on parallel so Dennis Hays could screw his wife on the desk at city hall.

My dad worked for the BPU for 40 years. He told me they were all crooks and told all of us kids to get the hell out of Wyandotte County. We did and all of our kids grew up in good schools.

Every day I wake up I thank my dad for telling the Truth and looking out for us kids.

I am sending you 50 bucks in the mail to keep up the good work. I would encourage everyone to give TJ 10 or 20 bucks to keep the web site going. Mail it in so the truth can come out.

Thanks.

Grateful in JOCO

TJ,

I have been reading the web page and love it. Great Job. The city hall spin machine keeps spinning and spinning and the next thing you know they have a crisis. Baloney.

The only crisis is their stupidity. The budget is just fine. They have taxed themselves into submission of killing all business and industry. Many of the businesses that are in Fairfax are hanging on by a thread. They will not be able to stand another tax increase. If the BPU pilot fee goes up many of our members will fold their businesses. We cannot pay anymore.

The smartest businesses are cutting back and so should government. Eliminate all unnecessary programs. I recently reviewed the budget of the UG and they are loaded with doubled up job descriptions and wasteful spending. Get some businessman together from Fairfax and they will show you how to cut waste.

Start with these items.

1. Eliminate all travel. Period
2. Eliminate 25% of all management positions
3. Eliminate \$5 million in unnecessary capital improvements
4. Eliminate all donations and charitable giving
5. Eliminate all grants and tourism dollars

If you did the above listing only you would save over \$12 million in funding. Budget crisis over. There is no crisis but the crisis of stupidity.

Sincerely,
Wayne Wooten

Keep up the good work -- you are the only one telling the truth

The UG is collapsing from stupid management.

Hays gets rid of 8 dollar an hour help and then cries to the taxpayers for more money. None of the cuts are real jobs only vacant jobs. Hays, Bock, Roddy and Walker have gang raped the taxpayers for so long there is no skin left.

The taxpayers are tired of paying and cannot pay anymore. The UG needs to sell all of their assets. Sell the golf course, sell Capitol Federal Concert Center, Sell everything you can to pay the employee's and keep their families in school.

UG stands for Under Ground in these days.

TJ please keep telling the truth about these crooks. The UG is so crooked that they should all be put in Prison. The Commissioners are not the problem Hays is. He tells them half truths and keeps them in the dark. They are voted into office but Hays does not tell them the facts of the budget. The facts are we are spending too much money and do not have enough revenue to cover the budget.

I am quitting before they take the health care away from my wife and myself... I worked for 35 years at city hall and the County. I am leaving good bye.

The Staff is demoralized. Dennis Hays makes so much more money and then gives his wife a huge increase in salary. We just got furloughed for 17 days and will take a pay cut, but the big shots get nothing but raises. Hays makes sooooo much money they should fire him and Denise and let them go get their pensions.

Hays makes around 185,000 and his wife gets around 90,000 and they get free cars and gasoline and living expenses of free food, free Nascar tickets, free jackets, free UG clothing, free trips out of town and all expense paid conventions and junkets to Vegas. No wonder the UG is broke.

Maddoff is the second biggest crook in the United States- Hays is the first.

TJ,

I have two ideas to save money at my UG employer.

Lower the number of Administrators. Bach and Hays are all you need. Get rid of Ortiz, Chriswell, Roddy, McMillan, Mary Jane Johnson, Mark Gilstrap, Chuck Henry, Tom Roberts, Hal Walker, Don Jones, Bob Evans and everyone else that has been there longer than 30 years. Lay them all off for 30 days and make them give back all of their cars and cell phones.

None of the top big shots work at city hall. They are traveling and wasting taxpayer money. Hays is never at work until 9am and leaves for lunch at 11:30 then leaves again at 4pm. And the rest of us poor little people work until 5pm and are forced to stay at City Hall building and other buildings in the City.

I hope you keep up giving us good ideas to survive TJ -- Rotten Politics is the only hope that City Hall staff has to keep going. Thanks for telling the truth.

Sincerely,
city hall staffers

Dear Mr. TJ Reardon,

We at City Hall who are not protected employee's are scared to death. We have no way of knowing whether we will get our next pay check or not. Dennis Hays and the top people got brand new cars and we got furloughed. Hays does not pay for his gasoline or any of his cell phones and his wife gets nearly 100 thousand a year for doing nothing.

The unions are protected but no management and little people are protected. It is a complete joke, if I had sex with my secretary and married her I would be fired. Yet Hays and his wife got divorced left their families, went on city trips together and then got married and give each other raises- both financial and otherwise. Now our city is broke and we have no money.

The only problem with Hays is he is laughing at the commission and taking the money to the bank. My kids cannot go to college because of Dennis Hays.

The Unified Government and Mayor Reardon Sell off Wyandotte County Lake

To solve the budget shortfall Mayor Joe Reardon is selling off trees at Wyandotte County Lake. The Mayor and Dennis Hays and Doug Bach have been seen going back and forth to WYCO Lake and the trees are coming down. The Walnut trees are worth 15 thousand each and the trucks are hauling them out.

No bid contracts... The UG does not have to bid to sell off the trees... the FBI should investigate this... Gus Fasone has been seen with Dennis Hays and Bach and the BPU people... The lake is definitely for sale. Good bye Wyandotte County lake it was fun while you lasted.

I wonder if Hays and the other people can sleep at night... knowing that the money they are costing taxpayers... we thought Maddoff was bad. HUH these guys are corrupt.

Live from the UG Commission meeting on twitter.....

Hays Announces BPU tax Increase
Mayor Joe "puppet boy" Reardon says go ahead

UG Commissioners met this evening at 4pm so no other taxpayers could get to the meeting. The voting lines have been drawn and are clear from the presentation.

Mayor Reardon is with Hays and approves every tax increase and will change nothing.

Ann Murgia opposes all tax increases and will reform and change government for the betterment of taxpayers.

Mark Holland is with Hays and company and is voting for all tax increases.

Kane is definitely against tax increases he should be the Mayor.

Nathan Barnes is against tax increases and does not support Hays.

Mark Mitchell appears to be leaning against taxing utilities more and forcing more people into foreclosure but it may be too early to tell.

John Mendez looks like he has had a stroke and will vote for all taxes, he should be removed from office. He looks like he has suffered a cerebral melt down. His brains are in his socks.

Bill Miller appears to be fed up with Hays but he may force other commissioners to do the dirty work so he can continue to get free parking lots and move the money to his real estate partner Rick Worner.

Pat Pettey is for all tax increases, she will kill taxpayers with higher taxes.

Tom Cooley has his nose so far up everyone's ass he cannot see straight.

Butch Ellison tried to talk them about the Budget but some balled headed guy talked him into the dirt. It appears Ellison is trying to get them to not increase taxes.... the balled headed guy is still talking.

It looks like it will be a split vote... Reardon keeps looking to Hays for answers.. this could not be good for taxpayers. If Hays tells Reardon something in his ear.. Reardon shakes his head yes.

They are delaying discussion on any items and their is very little intelligent talking, Ellison try's to say something but the balled headed guy keeps talking and talking. Can he just answer yes or no. I doubt it.
