

# Our City & the Mess were in and going to stay!!!!

Tweety Bird here, Mendez what you guys did to TJ was wrong; he is a great guy that really wants the best for our City.

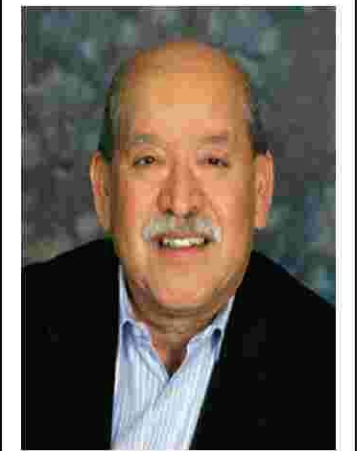

Rick Worner tells all of you what to do and you have known TJ longer than most, Worner could not have told TJ what to do, so you all attacked him. Shame! Shame!

John Jurcyk here. The Handsome one!

So what Tweety, Worner got a \$ Million from Red Development to tell us what to do and to control City commissioners, so I listen.

TJ just doesn't understand that in this town you have to be crooked to get ahead and you take \$ from dumb voters and tax- payers.

John Mendez here. Tweety I have known TJ since he was a small boy; I refereed his grade school basketball games. He had tryouts with the KC Royals and Minnesota Twins. He was a great Athlete, good job and beautiful wife!

His plan to recycle all KC and use the recycled materials to build solar towers to generate Electricity and Hydrogen fuel while creating thousands of good jobs would solve most all our City problems.

O' well TJ is honest and smart and we don't need that in our City. Commissioner is all mine! Bow to me!
