

UG - Going Bankrupt due to out of control Spending

Need a Girlfriend or an Administrative Assistant? No problem if you work for the UG. Just hire her as your AA and give her a 50K bump in salary and benefits over her career. Have taxpayers pay the bills and then dump the old lady and move out to a big house.

Sound like a crazy movie script? Don't laugh you taxpayers already paid for it. Inside sources at City Hall or UG HQ, indicate that those are not the only two girl friends on the payroll. Other top ranking UG department heads and Police and Fire regularly seek promotions and salary adjustments from those they have intimate knowledge of and with. Oooopps this may not make the government best practice awards, but according to UG low level employee's it is commonplace.

Things could get worse for taxpayers due to the recent elections. It looks like four more years of massive tax abatement giveaways and inside bond deals, while taxpayers barely try to hang onto their homes. Or for those living in the streets already, try to get a loaf of bread to survive.

Good People have worked their entire lives to simply retire with dignity. Political and Executives the robber barons of the UG, snatch hope and dignity from them and laugh as they drive their government owned cars and lunch on BPU expense accounts. If you are still living in KCK WYCO and reading this maybe you should see a psychiatrist or just pay your taxes and pray for a tornado, flood or fire.

As the UG spending increases, the local political powers will eat, drink and be merry on your dime. They have fun while you and your family starves to death while occupying service sector jobs that pay less than minimum wage. Stay active and call city hall, tell them to stop the cheating, lying, robbing and stealing. We cannot pay for this too much longer.
