

## **UG Budget Crashes Harder than State of Kansas**

Senator Chris Steineger and Kelly Kultala could not spare the UG from the budget axe. The Kansas Legislature has effectively killed the UG budget from 69 miles away. The budget passed by the State of Kansas recognizes all of the waste that the UG has in its existing budget.

Dennis Hays responds by giving his wife a raise while shorting every other budget that impacts the lives of citizens.

Senior Meals- cut the services, but gives Denise a Raise.

Poor Families- Cut the programs helping the kids, but gives Denise a Raise.

Don't Fill Potholes- Let the cars bottom out, but give Denise a Raise.

Fire good Workers- To hell with public safety, but give Denise a Raise

City Hall workers are continuing to email information about the unfair City Budget. Good workers say that they cannot get under the Desk of Dennis to get their fair shot at the milk sack. They get shorted while some employee's get to wear kneepads. UGGGGHHHH Good Government at it's best.

The stress of the job must be the reason people pull their pants down and get yanked, spanked and wanked. If they start a head tax at city hall, maybe they can pull the budget up by its bootstraps.

It is indeed sad that the UG lets' some good workers get hammered over lack of budget management by Dennis Hays. Wayne Cauthen and KCMO started cutting along time ago. Now Hays waits until the last minute and pins the problems on the City Commission.

The Commission Puppet's get all of the blame and Hays rides off in the Sunset with all of the cash.
