

## Unified Government Issues More Debt

Ignorance is bliss if you are a taxpayer. Apparently all of the UG Commission are avoiding the news of the National Recession to get in on the last minute issuance of millions more in debt.

The UG has issued millions to wal-Mart, Kansas Speedway and RED Development. In return the developers have not paid their taxes. So who gets to cover the debt service payments? YOU & I Do. That's right, your hard-earned tax dollars that you earn and pay in the form of property taxes goes to pay the debt on the bonds. In the meantime all of the corporate welfare recipients fly around in Lear jets and milk you to death. Have fun paying your taxes and call Joe 'Jackem up' Reardon and tell him to quit giving away the County. We cannot afford to pay the debt for the projects that he has already approved.

Dear Mayor Reardon,  
Quit giving away tax abatements and money to developers who kick back to your campaign fund. The greedy monsters on wall street have migrated to KCK wyco. When you feel like paying your taxes please bring a bill and explain how for the past 7 years your taxes have gone to your housing payment, while the rest of us have paid for everything.

Sincerely, Feed Up Taxpayer  
4-28-10
