

To All Veterans:

F.Y.I.

(From a Vietnam Vet and retired Police Officer)

I had a doctor's appointment at the local VA clinic yesterday and found something very interesting I would like to pass along.

While going through the triage before seeing the doctor, I was asked three Questions at the end of the exam:

- 1. Did I feel stressed?**
- 2. Did I feel threatened?**
- 3. Did I feel like doing harm to anyone?**

The nurse then informed me, if I had answered yes to any of the questions, I Would have lost my concealed carry permit as it would have gone into my Medical records and the VA would have reported it to Homeland Security.

I am a Vietnam vet and 15-year cc permit holder. It looks like they are going after us vets.

Be forewarned and be aware. This administration has gone on record as Considering veterans and gun owners as potential terrorists.

If you are a veteran, consider yourself forewarned. If you know veterans, Please pass this on to them. Spread the word far and wide-everyone knows a Vet!!!
